

# Glazing Tape

## Information for use with GE Construction Sealants

Glazing tapes are supplied as rolls, in 'tape' form and may have a pressure sensitive adhesive on one or both sides. They are usually available in a wide variety of widths. The following products have been tested by Momentive Performance Materials and are deemed to be compatible for use with any of the GE silicone sealants.

Manufacturer	Product	Website	Phone
Gaska Tape Inc.	VK2526SA Series Spacer Tape (high density) VK1826SA Series Spacer Tape (medium density)	<a href="http://www.gaska.com">www.gaska.com</a>	+1 (800) 423-1571

NOTE: This list is by no means inclusive and is not to be understood as an endorsement by Momentive Performance Materials nor that Momentive suggests that any one particular product or brand is preferred over another. Historical testing does not guarantee continued performance as this testing is point in time and changes in tape composition may alter future test or performance results.
